“ *Sandra was one of the healthcare workers who took care of my Dad before his passing at Sterling. We just heard of her passing last night as my Mom and Sister still visit my Dads old roommate at Sterling. We kept in contact with her and were worried when we couldn't reach her. We are so sad to know she passed. She was an angel to my Dad in his final days and we will never forget that. Our prayers and thoughts are with her family...she was a special lady.*
